What about assesment?

The course assessment takes the form of monthly questions that are answered online (all the information you will need to complete the questions will have been provided in your manual and/or the cd's). For those aiming for Practitioner status there are also video submissions. There is no external examination required. Assessments need not be submitted each month, but all 12 assessments will need to be submitted before the end of the 12 month period for certification.

What would happen if I decided to attend one of the NLP trainings at a later date?

We would be delighted to have you come and join us for the experience of a NLP training. Our home study clients only pay the difference between the price of the home study and the live course, making this is a very affordable upgrade for you for the future.

Am I eligible to attend the month NLP practice group if I have not attended the practitioner training?

Yes. Many of our NLP students and trainers meet monthly in London to connect and practice their NLP skills. This is an excellent resource for you to tap into. If you can, we encourage you to go and learn with and from this group of highly committed and dedicated NLP'ers.
