TOBY AND KATE MCCARTNEY | NEW BENEFITS | MARCH 2016

Practice Makes Perfect...

Our Practice groups in London have grown from strength to strength and we continue to see numbers of attendees rising. We pride ourselves in providing ongoing practice opportunities, as well as giving our new Trainers and Speakers the chance to speak and train for our audiences. The learning that comes from practicing and debating the skills we teach on our courses is second to none but, until now, has only been stored in the memory of those who have attended. From now on, we will be recording the live practice sessions and creating a library of the skills practiced. All recordings will be edited and added to your Kajabi system. You will be able to access the first of these from May 2016.

We have added new files to your Kajabi system in the last few months. If you have not logged in for a while, you may be missing out...
